			rilled well, equipped with pump and motor manner in which water is to be diverted, i.e. diversion structure, ditches an			
	pipelines pumping stations and flumes, drilled well with pump and motor, etc.	d_storage	reservoirs.			
9.	. Estimated cost of works \$150	.000.000.	.00			

11. Estimated time required to complete the application of water to beneficial use. 30 years  12. Remarks: Por use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use. This application and any others filed in this basin by Mashoe Counce to appropriate all of the unappropriated groundwater. The diversion is anticipate of exceed the perennial yield of the basin for limited periods of time. This limited duration over-pumpage will provide a supplemental supply of water to augment the quad municipal use of surface water during droughts on other short-term emergencies and trifler reservoirs. The 20-year average consumptive use will not exceed the perennial of the groundwater basin. To allow the basin to replenish its storage by natural much the normal (non-drought period) consumptive use will be about 80 to 90 percent of the sestimated personnial yield. This water will be comminged with other water appropriate by Washoe County to serve a county-wide population of 500,000 by the year 2030. By S.M.Kichael Mismer.  By S.M.Kichael Mismer.  Washoe County Utility Division P.O. Box 11130 Reno, Nevada 89520  Protested Six Protests.— See File.  DENIAL OF STATE ENGINEER  Geny  This is to certify that I have examined the foregoing application, and do hereby goom the same, subject to the following limitations and conditions:  This application is hereby denied on the grounds that it would be detrimental to the public interest to grant permits for a project the applicant no longer considers a viable source for municipal supply and for which the applicant has no definite plar formulated pursuant to which the waters would be put to beneficial use.  The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.  Work must be prosecuted with reasonable diligence and be completed on or before.  Proof of completion of work shall be filed on or before.  Proof of the application of water to beneficial use shall be f	10. Estimated time required to construct works	Estimated time required to construct works.  If well completed, describe works.
